DOCUMENT CONTROL AND PURPOSE

Item	Details
Document	BLTF Website and Management System - User Manual
Version	1.0
Audience	Public visitors, volunteers, directors/administrators, testers and project stakeholders
Purpose	Provide one clear, step-by-step reference for the public website and authenticated BLTF functions.
Review cycle	Update this manual whenever screens, user roles, workflows or integrations change.

Note: The screenshots included in this manual are interface examples/prototype screens from the project. Sample names, dates, totals and other displayed values may differ

1. INTRODUCTION

1.1. About Big Little Things Foundation

Big Little Things Foundation (BLTF) is a South African non-profit organisation based in 3 different cities focused on community upliftment through youth-driven initiatives. The platform supports the foundation's public engagement, volunteer participation and internal administration in one web-based system.

1.2. About This Manual

This manual explains how each user type interacts with the BLTF web platform. It combines public-facing website guidance with the authenticated volunteer and administrator workflows so that users can complete tasks without needing separate instructions.

1.3. Platform Overview

Area	Primary users	Login required?	Main activities
Public Website	Anyone	No	Browse information, projects, gallery, events, register, contact BLTF and access donations.
Volunteer Dashboard	Approved volunteers	Yes	View events, join events, log hours, track approvals, access certificates and manage profile.
Admin Dashboard	Authorised directors/admins	Yes	Manage volunteers, hours, donations, events, projects, gallery content and reports.

1.4. User Roles

Role	Typical permissions
Public visitor	View public content; submit enquiries; register as a volunteer; initiate donations.
Volunteer	All public functions plus authenticated participation, event sign-up, hour logging, certificates and own profile management.
Director / Admin	All applicable platform functions plus management and verification of volunteers, hours, donations, events, projects, gallery content and reports.

1.5 System Requirements

Requirement	Recommended/required specification
Device	Desktop, laptop, tablet or smartphone.
Browser	Latest Google Chrome, Microsoft Edge, Firefox or Safari.
Internet	Stable internet connection.
Display	Responsive design; small mobile screens are supported.

1.5. Key Terms

Term	Meaning
Hour log	A volunteer submission recording time spent on a BLTF activity.
Pending	A record waiting for administrator review.
Approved	A verified record that counts toward the volunteer's total.
Rejected	A record that was not accepted and must be corrected/resubmitted when appropriate.
Project / Drive	A BLTF initiative or campaign with a stated goal and progress.
Dashboard	The authenticated workspace presented after a successful login.
Milestone certificate	A volunteer certificate generated when approved hours reach a defined threshold.

2. Getting Started and Access

2.1. Open the Website

2.1.1. Open a supported browser on your device.
2.1.2. Enter the official BLTF website address in the address bar and press Enter.
2.1.3. Wait for the homepage to load. Confirm that the navigation bar and main content are visible.
2.1.4. Use the navigation menu to move between Home, About, Projects, Volunteer, Gallery and Contact. Use the Donate/Donate Now action where shown.

Security: Administrator functions should only be used from a trusted device and connection. Never share administrator credentials with volunteers or public users.

2.2. Navigating the Public Website

Navigation item	Purpose
Home	Overview of BLTF, impact statistics, current campaigns and calls to action.
About	Organisation story, mission, vision, values, history and team/founders.
Projects	Current projects and completed/past initiatives, with progress information.
Volunteer	Volunteer benefits, upcoming events and registration.
Gallery	Photos from BLTF activities with category filters and full-screen viewing where enabled.
Contact	Enquiry form, contact information, location and frequently asked questions.
Login	Sign in to the correct authenticated workspace.
Donate / Donate Now	Open the donation process.

2.3. Logging In

2.3.1. Select Login from the public navigation.
2.3.2. Enter the email address associated with the account.
2.3.3. Enter the account password.
2.3.4. Select Login / Sign in.
2.3.5. The system reads the account role and opens the appropriate dashboard. Volunteers are directed to the Volunteer Dashboard; authorised administrators are directed to the Admin Dashboard.

Account status: A pending volunteer account may not be able to access authenticated functions until the registration/approval workflow is completed in the deployed system.

2.4 Logging Out

2.4.1 From the authenticated dashboard, open the sidebar/menu.
2.4.2 Select Logout / Sign out.
2.4.3 Confirm the session has ended by returning to the public site or login screen.
2.4.4 On shared or public devices, close the browser window after logging out.

3. PUBLIC WEBSITE GUIDE

No login is required for the public pages described in this section. Public visitors can learn about BLTF, view projects and events, browse the gallery, contact the organisation, register as volunteers and access the donation process.

3.1 Home Page

3.1.1 Select Home from the navigation bar.
3.1.2 Review the hero section for the BLTF introduction and the main Volunteer and Donate calls to action.
3.1.3 Scroll to the impact statistics to review current organisation metrics displayed by the platform.
3.1.4 Review the active campaign/project cards and their progress indicators.
3.1.5 Use a project's Donate / Donate Now button to continue to the donation process for that project when available.
3.1.6 Continue scrolling to view the footer, quick links and contact information.

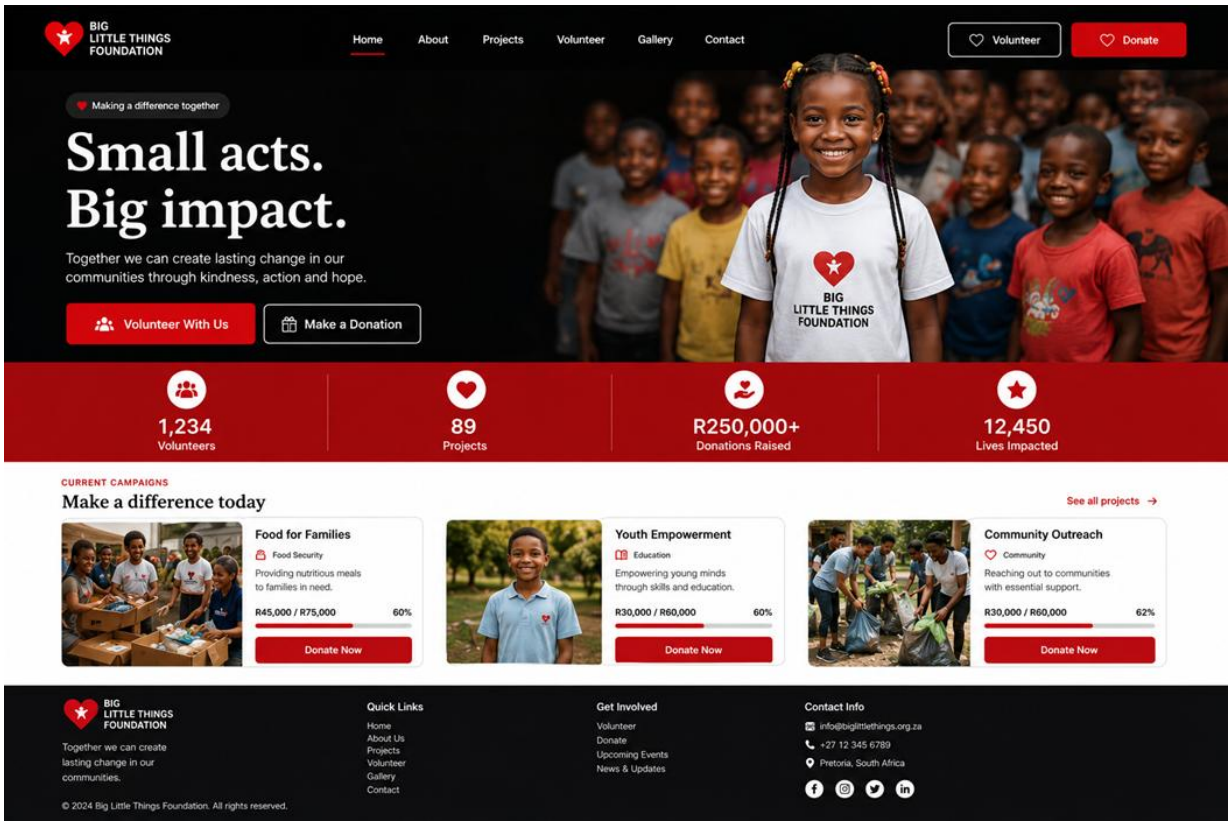

Figure 1: High-fidelity BLTF Home page interface

3.2 About Page

3.2.1 Select About from the navigation bar.
3.2.2 Read the organisation overview and history/timeline information.
3.2.3 Review the Mission, Vision and Values sections.
3.2.4 Scroll to the founder/team area to view the people and roles presented by the deployed platform.

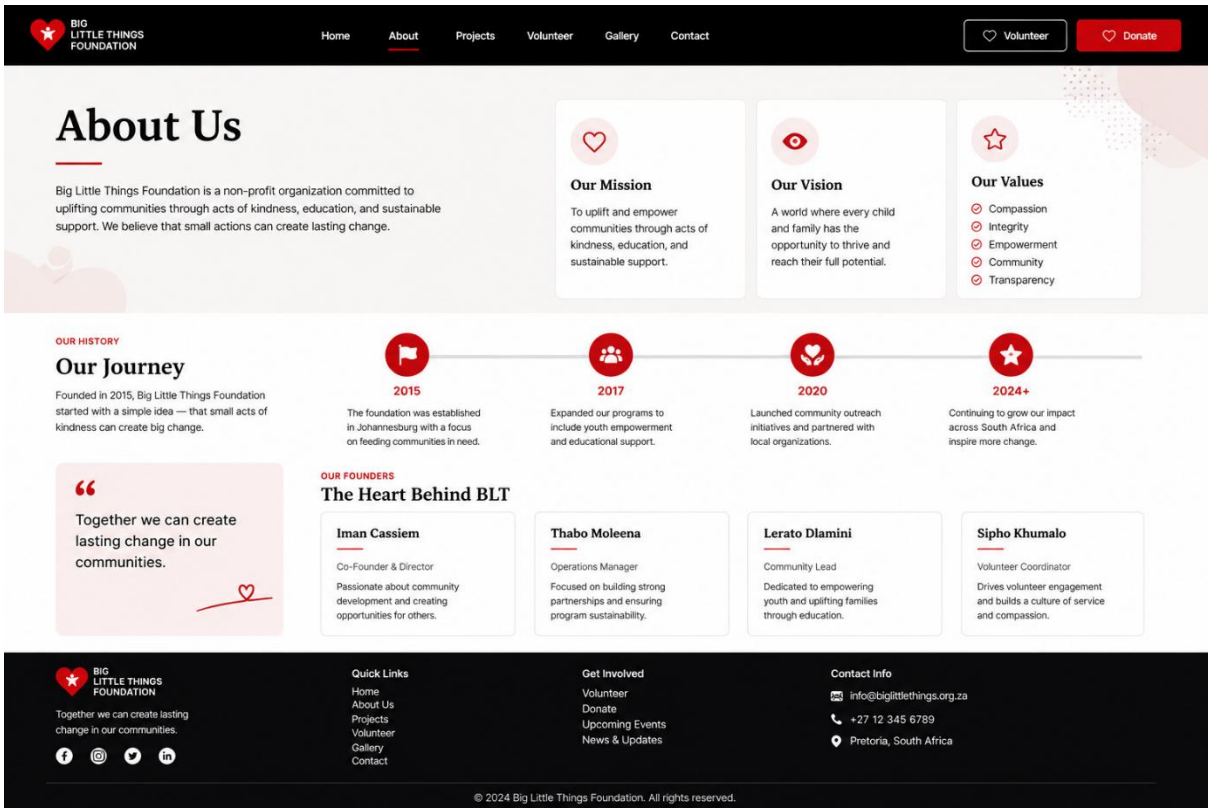

Figure 2: High-fidelity BLTF About page interface

3.3 Projects Page

3.3.1 Select Projects from the navigation bar.
3.3.2 Review the Current/Active Projects area. Each project card may display a category, description, location and progress information.
3.3.3 Open a project or select View Details to inspect its information when that control is available.
3.3.4 Use the Past Projects / completed area or tab to review previous initiatives.
3.3.5 Use a Donate button only where a current project accepts donations.

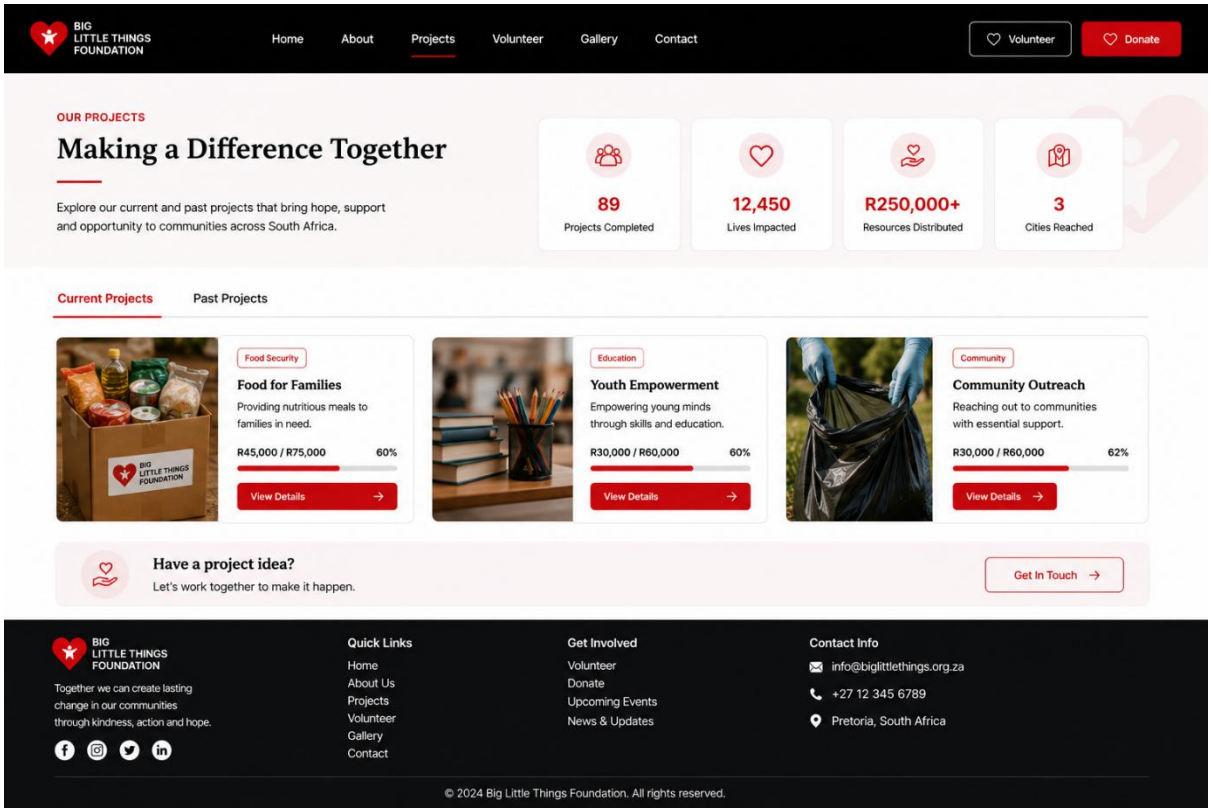

Figure 3: High-fidelity BLTF Projects page interface

3.4 Volunteer Page

3.4.1 Select Volunteer from the navigation bar.
3.4.2 Review the reasons/benefits for volunteering, including community impact and volunteer recognition.
3.4.3 Review the Upcoming Events section for dates, locations and available opportunities.
3.4.4 Use the registration section to create a volunteer account. See Section 4 for the full process.
3.4.5 Use event sign-up controls only after account access is available where the system requires authentication**.**

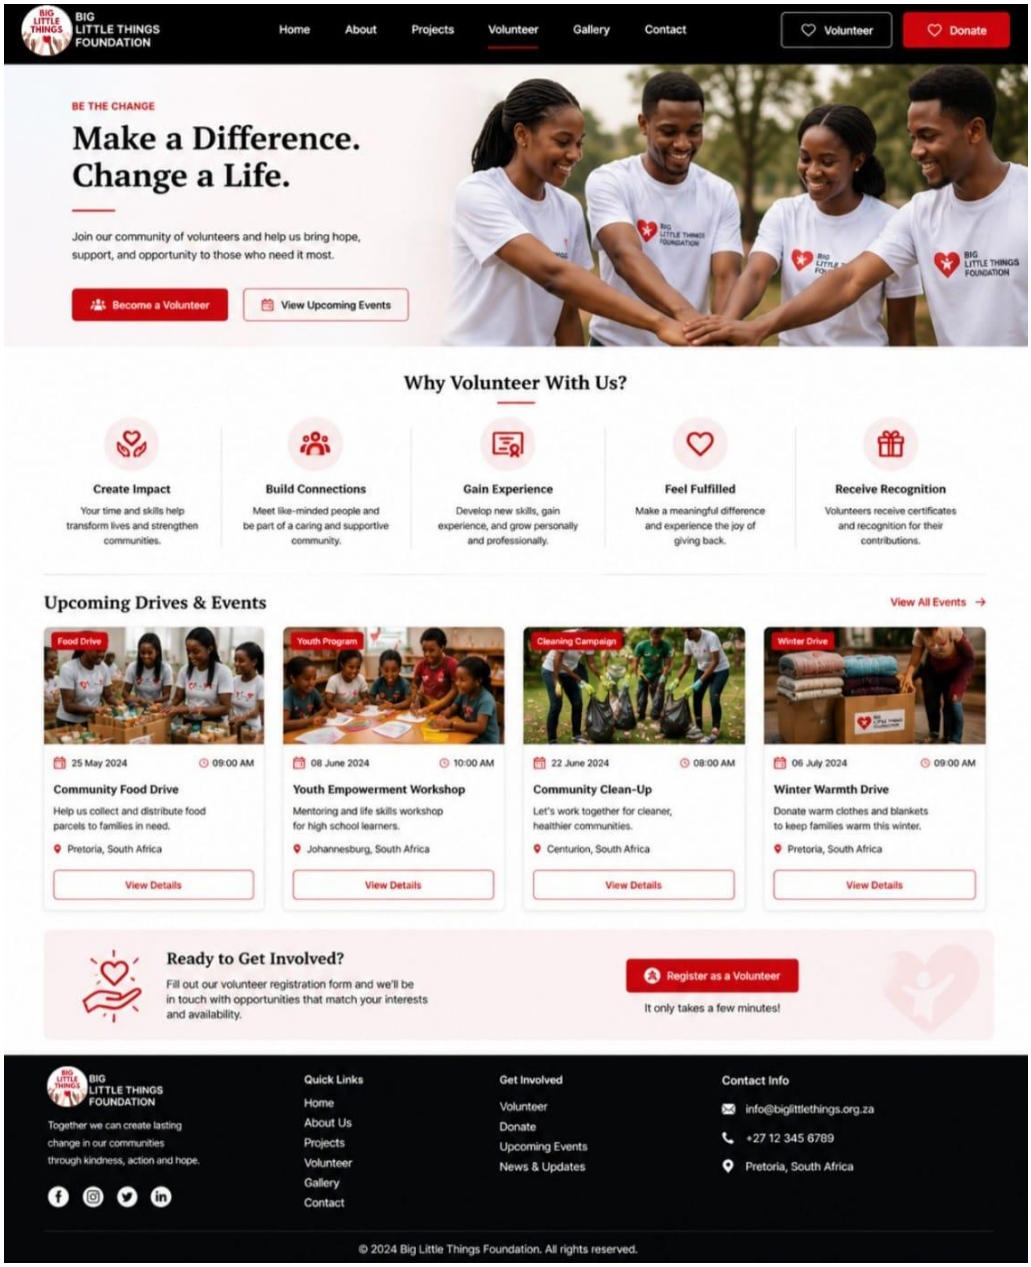

Figure 4: High-fidelity BLTF Volunteer page interface

3.5 Gallery Page

3.5.1 Select Gallery from the navigation bar.
3.5.2 Review the gallery grid containing photographs from BLTF activities.
3.5.3 Use the category filter controls to narrow the displayed images when enabled.
3.5.4 Select an image to open the larger lightbox view when enabled.
3.5.5 Use the previous/next controls or keyboard arrows where supported; close the lightbox with the close button or Escape key.

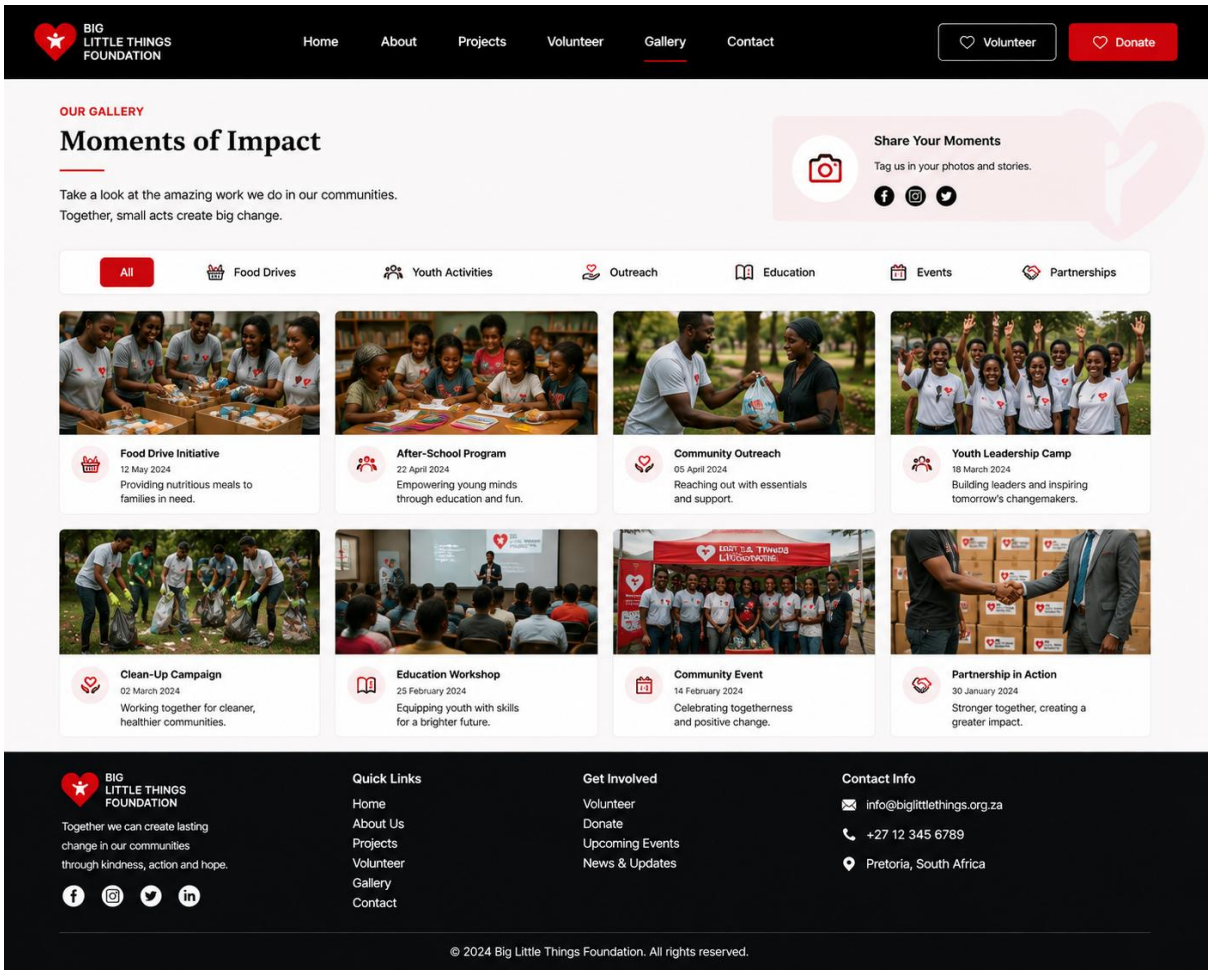

Figure 5: High-fidelity BLTF Gallery page interface

3.6 Contact and FAQ

3.6.1 Select Contact from the navigation bar.
3.6.2 Review the displayed email, phone, location and office-hours information.
3.6.3 Complete the enquiry form with your name, email address, subject and message.
3.6.4 Select Send Message.
3.6.5 Wait for the on-screen confirmation. Keep a copy of your submitted details if the enquiry is important.
3.6.6 Review the FAQ accordion for common questions before sending a second enquiry.

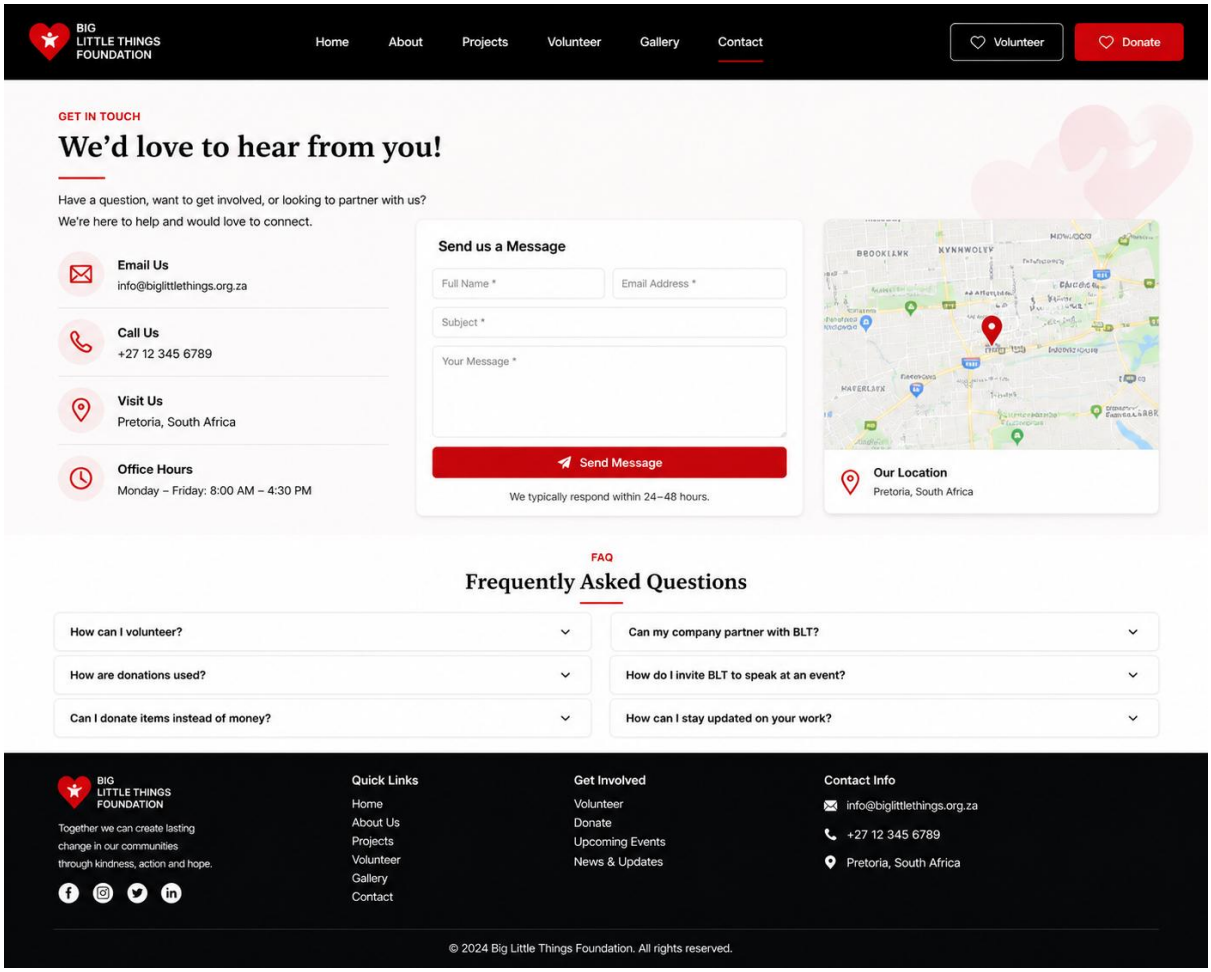

Figure 6: High-fidelity BLTF Contact page with enquiry form and FAQ

4. VOLUNTEER REGISTRATION AND ACCOUNT

This section applies to users who want to become BLTF volunteers. Public visitors use the Volunteer page to register; approved volunteers then use their authenticated dashboard to participate and track their contribution.

4.1 Register as a Volunteer

4.1.1 Select Volunteer from the public navigation.
4.1.2 Scroll to the volunteer registration section and select Register / Register as a Volunteer.
4.1.3 Enter the requested personal information, such as first name, last name, email address, phone number, city and skills/interests.
4.1.4 Review every field before submitting the form. Use an email address that you can access because the platform may send account or activity notifications to it.
4.1.5 Select Submit / Register / Create Account, depending on the deployed button label.
4.1.6 Wait for the success message or next-step instructions provided by the platform.
4.1.7 Complete any required activation or administrator approval step before attempting to use volunteer-only dashboard functions.

Good practice: Do not use another person's email address or create duplicate accounts. Keep account credentials private.

4.2 Account Status

Status	Meaning	Recommended action
Pending	Registration is waiting for review/activation where approval is required.	Wait for the required workflow to complete or contact BLTF support if the expected response time has passed.
Approved / Active	The account is authorised to access the volunteer dashboard.	Use Login to access volunteer functions.
Rejected / Inactive	The registration has not been accepted or the account is disabled.	Review any reason supplied and contact an administrator if clarification is required.

4.3 Password and Account Access

4.3.1 Use the same email address with which you registered.
4.3.2 Enter the password exactly as created; passwords are case-sensitive.
4.3.3 Use Forgot Password / password reset when that function is enabled in the deployed system.
4.3.4 If the reset process does not work, contact the designated BLTF support contact rather than creating a duplicate account.

4.4 Joining a Volunteer Event

4.4.1 Log in to the Volunteer Dashboard.
4.4.2 Open Events / Upcoming Events.
4.4.3 Review the event name, date, location, description and available places.
4.4.4 Select Join Event / Sign Up for the event you want to attend.
4.4.5 Confirm that the event appears in your registered or upcoming events list.

Important: Joining an event does not automatically create a volunteer-hour record. After attending, use Log Hours / My Hours to submit the actual hours worked.

5. Making and Recording Donations

5.1 Making an Online Donation (Monetary)

The monetary donation journey allows a visitor to support BLTF financially through a manual EFT bank transfer, with an optional proof-of-payment upload that is reviewed by an administrator before the donation is verified.
5.1.1 Select **Donate Now** from the navigation bar, or choose **Support a Project** from a project card, or select **Donate** from the footer.
5.1.2 On the Donate page, choose **Money** as the donation type.
5.1.3 Choose a suggested amount (R50, R100, R250 or R500) or enter a custom amount in the **Custom amount** field (minimum R5).
5.1.4 Review the **Banking Details** panel displayed on the form:

- **Account name:** BLT Foundation
- **Bank:** ABSA Bank
- **Account number:** 9366270023
- **Branch code:** 632005

A **Copy details** button is provided so the donor can paste the banking information into their banking app without transcription errors.
5.1.5 Complete the EFT transfer from the donor's own banking app or online banking, using an identifiable payment reference.
5.1.6 Fill in the required donor details:

- **Your Name**
- **Email Address**

and any optional fields:

- **City**
- **Phone**
- **Message**

5.1.7 Optionally attach a **proof of transaction** (image or PDF) to help the team verify the transfer.
5.1.8 Optionally tick **Make this donation anonymous** if the donor does not want their name shown on the recorded donation.
5.1.9 Click **Submit Donation** to record the submission.
5.1.10 A confirmation message appears stating that the donation has been recorded and is **pending verification**.
5.1.11 The administrator later reviews the proof of payment in the **Donations** section of the Admin Dashboard and updates the status from **Pending Verification** to **Verified**, **Rejected** or another appropriate status.
Payment safety: Never enter bank PINs, online banking passwords or OTPs into the BLTF website. The website does not process card payments directly and does not collect banking credentials. All monetary transfers happen inside the donor's own banking app or online banking environment.

5.2 Making an Online Donation (Physical / In-kind)

The physical donation journey allows a visitor to pledge food, clothing or sanitary products through the same Donate page.
5.2.1 On the Donate page, choose one of the item-based donation types:

- **Food Items**
- **Clothing**

- **Sanitary Products**

5.2.2 Describe the items in the **Quantity / Description** field, for example "5kg rice, 3 tins pilchards, 2 bags of clothing".
5.2.3 Optionally upload a photograph of the donated items using the **Upload image of donated items (optional)** field.
5.2.4 Fill in the same donor details as for a monetary donation:

- **Your Name** (required)
- **Email Address** (required)
- **City** (optional)
- **Phone** (optional)
- **Message** (optional)

5.2.5 Optionally tick **Make this donation anonymous**.
5.2.6 Click **Submit Donation**. The proof-of-transaction upload is **not shown** for item-based donations, because no money changes hands at the time of submission.
5.2.7 A confirmation message appears stating that the physical donation has been recorded and that the team will be in touch.
5.2.8 An authorised administrator then reviews the submission in the **Donations** section of the Admin Dashboard and updates the status to reflect the next step, for example **Received**, **Collection arranged** or **Completed**.

5.3 Recording a Donation as an Administrator

Administrators can record a donation that was received offline (for example, cash handed in at a drive, or items collected in person) using the **Add Donation** form in the Admin Dashboard.
5.3.1 Log in as an administrator and open **Donations** from the Admin Dashboard sidebar.
5.3.2 Under **Add Donation**, fill in the following fields:

- **Donor Name** - optional. Leave blank for an anonymous donation.
- **Donor Email** - optional.
- **Type** - required. Choose from:
  - **Money**
  - **Food Items**
  - **Clothing**
  - **Sanitary Products**
- **City** - optional, for example "Pretoria".
- **Amount (ZAR)** - shown only when **Money** is selected.
- **Items Description** - shown only for the item-based types, for example "5kg rice, 3 tins pilchards".
- **Message / Notes** - optional.
- **Upload proof / image** - optional. An image or PDF can be attached.
- **Status** - required. Choose from:
  - **Verified**
  - **Pending**
  - **Received**
  - **Collection arranged**
  - **Completed**
  - **Rejected**
- **Mark as anonymous** - optional checkbox. When ticked, the donor name is stored as "Anonymous" on the public side.

5.3.3 Click **Add Donation**.
5.3.4 A success message appears and the new record is inserted at the top of the **All Donations** table.
5.3.5 The **All Donations** table below the form lists every donation with the following columns:

- **Donor**
- **Type**
- **Amount / Items**
- **Status**
- **Proof** (a **View** button appears when a proof file was uploaded)
- **Actions** (a status dropdown and a **Delete** button)

5.3.6 The status dropdown in each row allows the administrator to update the donation status without editing the record. Available statuses are **Pending**, **Verified**, **Rejected**, **Received**, **Collection**, and **Completed**.
5.3.7 The **Delete** button on each row removes the donation from the system. Any uploaded proof or item image associated with that record is also removed from the server.

5.4 Viewing and Filtering Donations

5.4.1 The **Recent Donations** panel on the Admin Dashboard overview shows the five most recent donations with their donor, type, amount or items, status and date.
5.4.2 The full list of donations is available under **Donations** in the sidebar, ordered by submission date (most recent first).
5.4.3 Proof-of-payment files are stored in a private directory on the server. They are **not** publicly accessible and can only be opened by an authenticated administrator through the **View** button in the donations table.

5.5 Understanding Project Progress

Project progress bars on the public **Projects** page display the relationship between what has been recorded for a campaign and its stated target. Progress is driven by the campaign's target and the recorded progress stored against the project record; it is not affected by individual monetary donations.
Administrators should:
5.5.1 Keep each project's **goal** and **progress** fields up to date as contributions are collected.
5.5.2 Update the project's **status** (Upcoming, Active, Completed, Archived) so that the public page reflects the correct stage of the initiative.
5.5.3 Reconcile monetary donations separately from project progress: donations are recorded in the Donations table, while project progress reflects the physical or monetary target attached to that specific campaign.
Maintaining accurate goals and donation records ensures that public progress information remains trustworthy and consistent with what the organisation has actually collected.

6. VOLUNTEER DASHBOARD GUIDE

This section requires a valid volunteer account with access to the authenticated workspace.

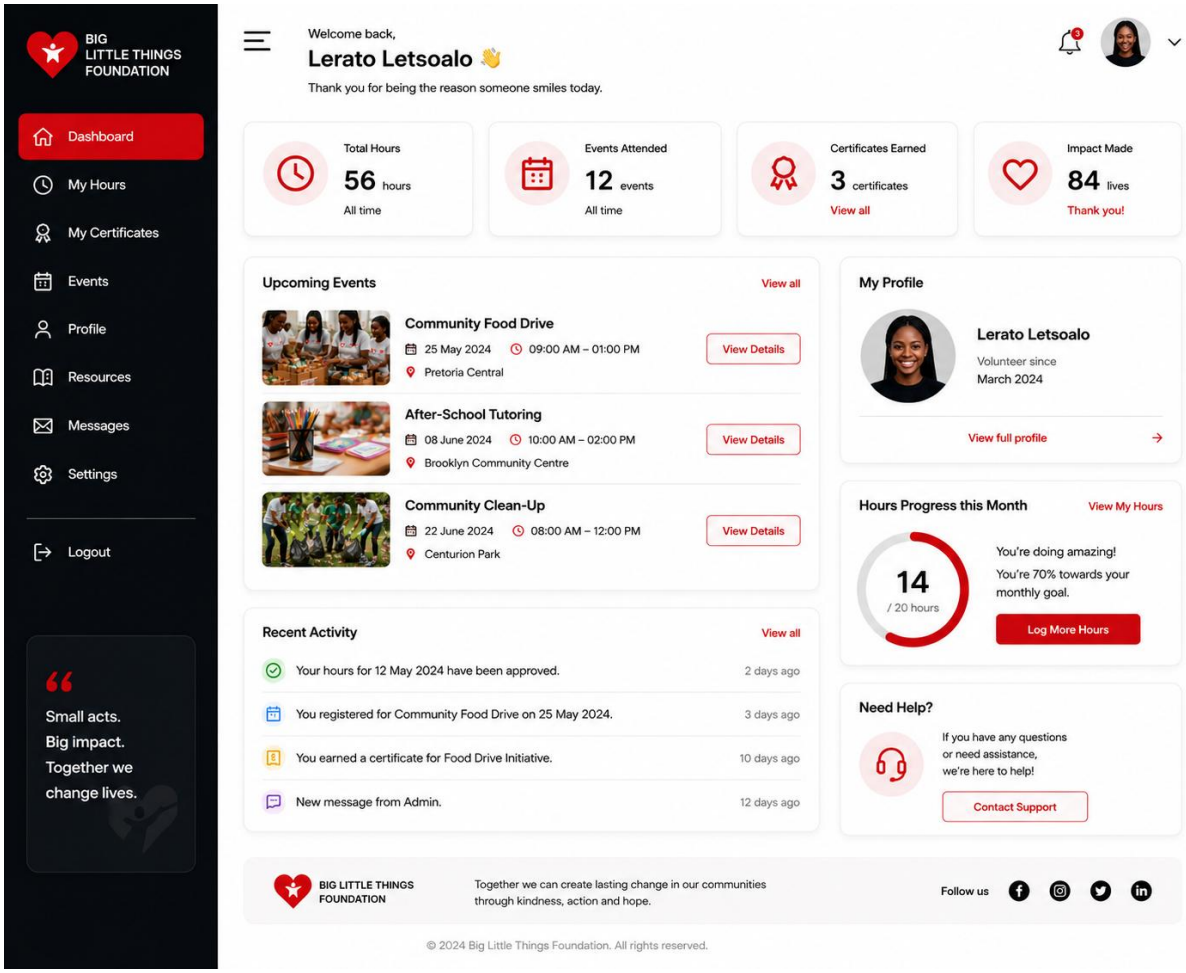

Figure 6: Volunteer Dashboard interface (example/prototype data)

6.1 Dashboard Overview

The Volunteer Dashboard is the volunteer's secure workspace. Depending on the deployed version, the sidebar may include Dashboard, My Hours, My Certificates, Events, Profile and additional items such as Resources, Messages or Settings.

Dashboard area	Purpose
Overview / Dashboard	Summary of volunteer contribution, upcoming events and recent activity.
My Hours / Log Hours	Submit new hour records and review existing hour submissions.
My Certificates / Certificates	View and download certificates earned from approved hours.
Events	Browse and join available volunteer events.
Profile	View and edit permitted personal information.
Messages / Resources / Settings	Additional authenticated functions where enabled in the deployment.

6.2 Review Your Dashboard Summary

6.2.1 After login, review the summary cards for total hours, events attended, certificates and any other contribution metric provided by the system.
6.2.2 Review upcoming events and select View Details where you want more information.
6.2.3 Check Recent Activity for updates such as approved hours, event registrations or certificate notifications.
6.2.4 Use any shortcut such as Log Hours or View Certificates to move directly to the relevant task.

6.3 Submit Volunteer Hours

6.3.1 Open My Hours / Log Hours from the dashboard sidebar.
6.3.2 Enter or select the event/activity name.
6.3.3 Select the activity date.
6.3.4 Enter the number of hours worked. Where decimals are supported, enter values such as 2.5 for two and a half hours.
6.3.5 Enter the activity location if the form provides a location field.
6.3.6 Add notes describing what you did or the contribution you made.
6.3.7 Review the information for accuracy.
6.3.8 Select Submit / Submit Hours.
6.3.9 Confirm that the new record appears in your hours history with a Pending status.

Important: Only approved hours count toward verified totals and certificate milestones. Pending hours are not yet treated as final.

6.4 Understand Hour Status

Status	Meaning	What the volunteer should do
Pending	Submitted and waiting for administrator review.	Wait for the approval workflow to complete; do not submit duplicate records unless instructed.
Approved	Verified and added to the volunteer's approved total.	No further action is required.
Rejected	Not accepted by the administrator.	Read any feedback/reason, correct the information if necessary and resubmit when appropriate.

6.5 View Your Hours History

6.5.1 Open My Hours / activity history.
6.5.2 Review the event, date, hours and current status for each record.
6.5.3 Check approved totals when monitoring certificate progress.
6.5.4 Contact an administrator if an approved entry is missing or appears incorrect.

6.6 Join an Event from the Dashboard

6.6.1 Open Events / Upcoming Events.
6.6.2 Review event dates, times, locations and remaining places.
6.6.3 Select Join Event / Sign Up.
6.6.4 Confirm that the event is shown in your registered/upcoming events list.

6.7 Manage Your Profile

6.7.1 Open Profile / My Profile.
6.7.2 Review your stored personal information and skills/interests.
6.7.3 Edit only the fields the system allows you to change.
6.7.4 Leave the login email unchanged when it is locked by the platform.
6.7.5 Select Save Changes and confirm the success message.

7. VOLUNTEER CERTIFICATE SYSTEM

7.1 Certificate Milestones

Certificate level	Approved hours required	Purpose
Bronze	10 hours	First volunteer milestone / recognition.
Silver	25 hours	Recognises sustained volunteer participation.
Gold	50 hours	Recognises significant contribution.
Platinum	100 hours	Recognises exceptional long-term contribution.

7.2 How Certificate Generation Works

7.2.1 A volunteer attends a BLTF activity and submits an hour log.
7.2.2 An authorised administrator reviews and approves the submitted hours.
7.2.3 The approved hours are added to the volunteer's verified total.
7.2.4 The system checks whether the new total reaches a certificate milestone.
7.2.5 When a milestone is reached, the platform generates the relevant certificate according to the deployed certificate workflow.
7.2.6 The volunteer can access the certificate from My Certificates / Certificates.
7.2.7 The volunteer downloads the certificate as a PDF where PDF generation is enabled.

7.3 Download a Certificate

7.3.1 Open My Certificates / Certificates from the volunteer sidebar.
7.3.2 Locate the earned certificate you want to save.
7.3.3 Review the level, volunteer name, approved-hours total and issue details.
7.3.4 Select Download / Download PDF.
7.3.5 Save the file to a secure location and use it for your records, CV or other appropriate application where accepted.

Deployment note: Certificate generation and PDF downloads depend on the final certificate workflow being configured in the deployed system.

8. Admin Dashboard Guide

The Admin Dashboard is restricted to authorised directors/administrators. It provides centralised management of volunteers, hours, donations, events, projects, gallery content and reports.

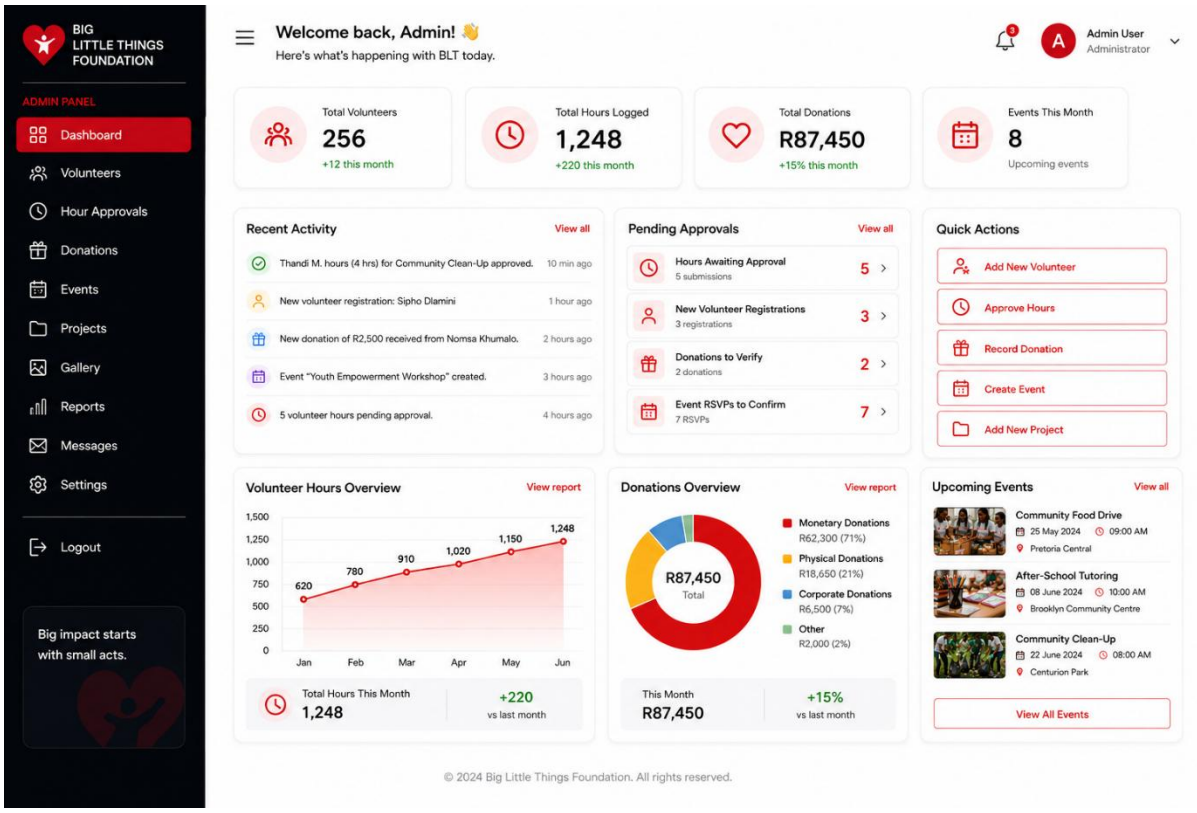

Figure 8: Admin Dashboard interface (example/prototype data)

8.1 Dashboard Overview

8.1.1 Log in with an authorised administrator account.
8.1.2 Review the KPI cards for volunteers, logged hours, donations and events or other totals shown by the deployed dashboard.
8.1.3 Review pending approval queues for volunteer hours, new registrations and other admin tasks.
8.1.4 Use the Quick Actions area where available for common tasks such as adding a volunteer, approving hours, recording a donation, creating an event or adding a project.
8.1.5 Review charts or progress panels for volunteer activity, donations and upcoming events.

8.2 Manage Volunteer Accounts

8.2.1 Open Volunteers from the admin sidebar.
8.2.2 Search or filter the volunteer list by status, city or other available filter.
8.2.3 Open a volunteer record to review account details and participation information.

8.2.4 For a pending registration, verify the details against BLT procedures before approving.
8.2.5 Select Approve / Activate or the equivalent action to approve a valid registration.
8.2.6 Confirm the status changes to Approved / Active.
8.2.7 Use Remove / Deactivate only according to BLT policy and after confirming the action.

Administrative caution: Deleting a volunteer account may remove or affect related participation records depending on system configuration. Use deletion only when authorised and necessary.

8.3 Approve or Reject Volunteer Hours

8.3.1 Open Hour Approvals from the sidebar.
8.3.2 Review pending submissions, including volunteer name, event/activity, date and hours.
8.3.3 Compare the submission with available BLT attendance or participation evidence.
8.3.4 Select Approve when the submission is verified.
8.3.5 Select Reject when the submission cannot be verified; provide a reason where the system allows.
8.3.6 Confirm that the updated status is displayed.
8.3.7 Where certificate automation is enabled, verify that milestone processing occurs after approval.

8.4 Manage Events

8.4.1 View Events
- Open Events from the sidebar.
- Review event cards or rows for name, date, location, time and available volunteer capacity.
- Open an event to inspect its details and current registrations.

8.4.2 Create an Event
- Select Create Event / Add Event.
- Enter a clear event name.
- Enter the date, time, location and event description where those fields are available.
- Enter the maximum volunteer capacity.
- Review the information and select Save.
- Confirm that the event appears in the admin list and, where publication is configured, on the public Volunteer page.

8.4.3 Edit or Close an Event
- Locate the event you want to change.
- Select Edit / the pencil icon.
- Change the required fields and select Save Changes.
- To close or cancel the event, use the available Close/Cancel action and confirm the prompt.

- Verify that the public and volunteer views reflect the updated status where applicable.

8.5 Manage Projects

8.5.1 Open Projects from the sidebar.
8.5.2 Review active projects and their progress.
8.5.3 To create a project, select Add Project and enter the name, category, location, description, goal and dates where applicable.
8.5.4 Select Save and confirm the project record is created.
8.5.5 To update progress, open the project record and enter the latest amount/quantity collected or other configured progress value.
8.5.6 Select Update / Save and verify that the progress indicator reflects the new value.

8.6 Manage Donations

8.6.1 Open Donations from the sidebar.
8.6.2 Review donation totals and the donations table.
8.6.3 Select Record Donation / Add Donation for a manual record.
8.6.4 Choose the donation type, such as cash/monetary or physical/items.
8.6.5 Enter donor information where permitted, amount or quantity, date, city/location and related project.
8.6.6 Enter transaction/reference information for monetary records when provided by the payment process.
8.6.7 Save the donation and verify the record in the list.

8.7 Manage Gallery Content

8.7.1 Open Gallery from the sidebar.
8.7.2 Select Upload / Add Image.
8.7.3 Choose an approved image file from the device or use drag-and-drop if the interface supports it.
8.7.4 Enter the caption, event name, date and category where required.
8.7.5 Confirm the upload and verify that the image appears correctly in the admin gallery.
8.7.6 Check the public gallery to ensure the image is correctly categorised where publication is automatic.
8.7.7 Use Delete/Remove only for approved content-management actions.

Content and privacy: Only upload images that BLT has approved for publication and that comply with the organisation’s privacy and consent procedures.

8.8 Generate Reports

8.8.1 Open Reports from the sidebar.
8.8.2 Select the report type required.
8.8.3 Apply available filters such as date, city, event or project.
8.8.4 Generate the report.
8.8.5 Review the generated results for accuracy.

8.8.6 Export to Excel or PDF where the deployed platform provides those options.
8.8.7 Store exported reports securely because they may contain personal or donor information.

Report	Typical contents
Volunteer Hours Report	Approved hours by volunteer, running totals and certificate-related progress where configured.
Donation Summary	Donation records, types, amounts/quantities and associated projects.
Event Participation	Registrations/attendance information by event.
Full Impact Report	Combined organisation KPIs, project progress, volunteer statistics and donation totals where configured.

9. Troubleshooting and Good Practice

9.1 Common Problems

Problem	Possible cause	Recommended action
Unable to log in	Incorrect credentials, pending account or account not configured.	Check email/password, use password reset if enabled, confirm account status and contact an administrator if needed.
Volunteer hours not visible	Submission not saved or still awaiting approval.	Open My Hours and check the submission status; contact an administrator if the record is missing.
Certificate unavailable	Hours not approved or milestone not reached.	Confirm approved hours and certificate threshold; contact an administrator if the threshold has been reached but the certificate is missing.
Event sign-up fails	Event full, closed or duplicate registration.	Check remaining places and your existing event registrations.
Image will not upload	Unsupported file type/size or storage configuration issue.	Use an approved file format/size and retry; contact an administrator if it persists.
Donation payment fails	Payment-provider or merchant configuration issue.	Do not repeatedly submit the payment. Check payment details and contact BLT if the issue continues.
Page looks broken	Network, browser cache or responsive-layout issue.	Refresh the page, check the connection, clear browser cache or try another supported

Problem	Possible cause	Recommended action
		browser/device.
Admin option missing	Incorrect role or permissions.	Contact the system administrator; do not attempt to bypass role controls.

9.2 Clearing Browser Cache in Chrome

9.2.1 Press Ctrl + Shift + Delete on Windows or Cmd + Shift + Delete on Mac.
9.2.2 Set the time range to All time.
9.2.3 Select Cached images and files. Avoid clearing saved passwords unless you intentionally want to remove them.
9.2.4 Select Clear data.
9.2.5 Close and reopen the browser, then open the BLTF website again.

9.3 Handling Error Messages

9.3.1 Read the complete error message before attempting the action again.
9.3.2 Avoid repeated submission of the same transaction, especially payments.
9.3.3 Note the page/function, approximate date/time and exact error text.
9.3.4 Capture a screenshot when appropriate, removing sensitive information before sending it to support.

9.4 Security and Good Practice

- Use strong, unique passwords and never share account credentials.
- Log out of volunteer and administrator accounts when finished, especially on shared computers.
- Only authorised administrators should access donor, volunteer and internal management records.
- Do not place passwords, payment secrets or service-role/API secret keys in public HTML or JavaScript.
- Only upload media that BLT has approved for publication.
- Handle personal information only for legitimate BLT purposes and according to the organisation’s privacy procedures.
- Keep approval evidence and correction records for important administrative actions.
- Do not try to bypass role-based access controls when an option is not available to your account.

10. CONTACT AND SUPPORT

10.1 BLTF Support

Support item	Details
Organisation	Big Little Things Foundation
General email	biglittlethingsfoundation@gmail.com
Website	Use the Contact page on the deployed BLTF site for the latest published details.
Support information	Provide your name, role, date/time of issue, affected page/function, exact error message and screenshot where appropriate.

Support details: Use the contact details shown in the system as the authoritative operational details. Prototype screenshots in this manual may show sample contact information.

10.2 Reporting a Technical Problem

10.2.1 Record what you were trying to do when the problem occurred.
10.2.2 Record the page/function and approximate date/time.
10.2.3 Copy the exact error message, if one appears.
10.2.4 Provide a screenshot where possible, after removing passwords, OTPs, payment data or other sensitive information.
10.2.5 Send the information to the designated BLTF support contact or authorised administrator.
10.2.6 Do not repeatedly retry a payment or other transaction that may create duplicate records.

11. APPENDICES

Appendix A: User Permissions Matrix

Feature	Public	Volunteer	Admin
Browse website	Yes	Yes	Yes
View projects and gallery	Yes	Yes	Yes
Access donation process	Yes	Yes	Yes
Register as volunteer	Yes	Not applicable	Not applicable
Join events	From public page / login as required	Yes	Yes, where enabled
